|                   |                          |
| <b>Liverworts</b> | Cephalozia bicuspidata   |
|                   | Diplophyllum albicans    |
|                   | Plagiochila porelloides  |
|                   | Radula complanata        |
|                   | [Scapania undulata]      |
|                   | Pellia epiphylla         |
|                   | Metzgeria fruticulosa    |
|                   | Metzgeria furcata        |
|                   | Conocephalum conicum     |
|                   |                          |
| <b>Mosses</b>     | Polytrichastrum formosum |
|                   | Atrichum undulatum       |
|                   | Tetraphis pellucida      |
|                   | Dicranella heteromalla   |
|                   | Dicranum scoparium       |
|                   | Campylopus introflexus   |
|                   | Fissidens taxifolius     |
|                   | [Barbula unguiculata]    |
|                   | [Didymodon insulanus]    |
|                   | [Didymodon rigidulus]    |
|                   | Tortula muralis          |
|                   | Schistidium crassipilum  |
|                   | [Grimmia pulvinata]      |
|                   | [Grimmia trichophylla]   |
|                   | Bryum capillare          |
|                   | Mnium hornum             |
|                   | Rhizomnium punctatum     |
|                   | Plagiomnium undulatum    |
|                   | Orthotrichum affine      |
|                   | Orthotrichum lyellii     |
|                   | Orthotrichum pulchellum  |
|                   | Orthotrichum stramineum  |
|                   | Orthotrichum anomalum    |
|                   | [Ulota bruchii]          |

|                    |   |
|--------------------|---|
|                    | <i>Ulota phyllantha</i>   |
|                    | <i>Thamnobryum alopecurum</i>   |
|                    | <i>Amblystegium serpens</i>   |
|                    | [ <i>Amblystegium varium</i> ]  |
|                    | <i>Isothecium myosuroides</i>   |
|                    | [ <i>Homalothecium sericeum</i> ]   |
|                    | <i>Brachythecium rutabulum</i>  |
|                    | <i>Kindbergia praelonga</i>   |
|                    | [ <i>Oxyrrhynchium hians</i> ]  |
|                    | <i>Plagiothecium undulatum</i>  |
|                    | <i>Pseudotaxiphyllum elegans</i>  |
|                    | <i>Calliergonella cuspidata</i>   |
|                    | [ <i>Hypnum resupinatum</i> ]   |
|                    | <i>Hypnum cupressiforme</i> var. <i>cupressiforme</i>                     |
|                    | <i>Hypnum jutlandicum</i>   |
|                    |   |
| <b>Wildflowers</b> | Lesser Celandine ( <i>Ficaria verna</i> )                                 |
